The average Canadian buys 70 new pieces of clothing per year. Only half of what is bought is used and the rest is either left unused or thrown out. Textiles, including the fast fashion trend, contributes to over 10 million tonnes of waste in landfill, of which 95% could have been reused or recycled.

Follow these tips to work towards Clothes'ing the Loop on Textiles by keeping them out of the landfill!

1) Shop Sustainably
2) Care for Your Clothes
3) Donate What You No Longer Need

Scan the QR code to visit our campaign page for more information on our textiles tips. Donate your unwanted textiles, such as clothing, shoes, bedding and more by using the **Clothes'ing the Loop Map Tool** to find businesses, donation bins, and organizations accepting donations near you!
