

Find a Station

Electric vehicle drivers can charge up at 22 Level 2 FLO charging stations and 2 Level 3 FLO fast chargers at various municipal offices, recreation, and cultural centers across the County.

How to Find a Station

PlugShare and ChargeHub are two independent user-verified public charging maps that track the location and operating status of every public charging station across North America.

PlugShare and ChargeHub maps can be accessed online and are free to download from Google Play and the App Store.

FLO has a desktop map and mobile app to help you locate charging stations, pay for sessions, and consult usage data.

Station Types

Level 2

Often thought of as destination or opportunity charging, a Level 2 public charging station is a great solution if you plan on staying at your 'destination' for several hours or are looking for an opportunity to top-up.

 **1 hour = 30km driving range**

 **\$2.00 an hour**

Level 3

Think of a Level 3 charger like a gas station! A Level 3 charger is a convenient option for those short on time or needing to charge up from low battery. A Level 3 charging station makes for a great road trip buddy!

 **1 hour = 250km driving range**

 **\$10.00 an hour**
