*County of Dufferin*

*Like many Canadians and communities across the country, the County of Dufferin is shocked and saddened by the tragic attack at the Centre culturel islamique de Québec located in the Ste-Foy neighbourhood of Québec City. We stand together with fellow Canadians to offer our deepest condolences to the victims in Quebec City and to honour our values of peace, diversity and inclusion.*

*As we start this year, the 150<sup>th</sup> year of Canada, the County of Dufferin continues to be a generous and welcoming community. We remain committed to working to enhance the lives of residents by investing not only in public infrastructure but also in poverty reduction initiatives, refugee and newcomer support, social programs and community events. We support open communication, collaboration and working together for a stronger community and stronger Canada.*
