

IC&I Business Recycling Registration

As of January 1st, 2026 all Industrial, Commercial and Institutional (IC&I) locations including businesses, non-profits, faith-based centres, municipal facilities etc. that utilize Dufferin County's curbside recycling collection program will be required to utilize blue carts, and will be on a dedicated recycling collection route.

In preparation, **ALL participating** IC&I/business locations are required to register for collection (even if you already receive collection and have blue carts). If you currently use blue boxes or blue bags, you will be provided with a blue cart to facilitate collection.

Owners/property managers must register by submitting this form and provide the contact information for the IC&I/business location **by September 30th, 2025**. Once registered, Dufferin Waste staff will visit each location, to deliver a cart to those who are changing from blue boxes/bags to a cart, and to attach large IC&I stickers to all existing and new blue carts so the collection company (GFL) can easily identify them.

Please have your contact information, property address and waste program information ready to fill in the form below. The County relies on the information provided in this registration and any misrepresentation/inaccurate information may impact the municipal waste services available to you.

Please complete all steps in the application.
